Ideas For Using Logo Graphics

From side 2, cut off the white strip in the center of the graphic. Spread glue from a glue stick on the white strip of side 1. Overlap the center edge of side 2 covering the white strip of side 1 so the graphic matches. Secure with tape on the reverse side. Cut out the graphic, cutting away all white paper; laminate the graphic and trim the laminate, leaving about 1/16th of an inch to prevent fraying.

SIDE 1

SIDE 2

From side 2, cut off the white strip in the center of the graphic. Spread glue from a glue stick on the white strip of side 1. Overlap the center edge of side 2 covering the white strip of side 1 so the graphic matches. Secure with tape on the reverse side. Cut out the graphic, cutting away all white paper; laminate the graphic and trim the laminate, leaving about 1/16th of an inch to prevent fraying.
